Mabalacat City College Spreads ASEAN Awareness

With the 55th Founding Anniversary of ASEAN, the Office of the Vice President for External Affairs (OVPEA), through its Internationalization Office, conducted an ASEAN awareness campaign by distributing pamphlets, sharing the principles and the significant advocacies and programs of the organization to all employees and students of MCC.

The pamphlet includes a brief account of the union and illustrations explaining how the state members act as a positive support system, mainly establishing the three community pillars - political and security, economic, and socio-cultural cooperation.

For the whole month of August, MCC is set to hold more programs and activities that would inculcate ASEAN spirit and identity to the academic community.
