RE : SUPPORT DOCUMENT FOR EDCOM2 INCOME PROFILING 2023 DATA

The collection of income data for households is based on both the father's and mother's incomes. To determine the sum of the income ranges the Analytics Office created the matrix in Table 1. The colors represent different kinds of income brackets.

Household Income Matrix		Mother's Income					
		No Income	Less than Php 10,000	Php 10,000-Php 19,000	Php 20,000-Php 39,000	Php 40,000-Php 59,000	Php 60,000 or more
F a t h e r ' s I n c o m e	No Income	568	289	141	61	3	2
	Less than Php 10,000	731	607	113	39	3	4
	Php 10,000-Php 19,000	465	140	161	32	2	5
	Php 20,000-Php 39,000	115	37	35	44	2	1
	Php 40,000-Php 59,000	17	2	0	7	6	4
	Php 60,000 or more	12	1	6	4	2	4

Table 1.

MABALACAT CITY COLLEGE

Analytics Unit

As a result of the matrix, the sum of the income for both parents can now be identified, as shown in Table 2. Currently, 1.5% of the student population, which equates to 56 students, has no data available at this moment as they didn't log in to their Student Portal.

INCOME	Less than Php 10,000	Php 10,000-Php 19,000	Php 20,000-Php 39,000	Php 40,000-Php 59,000	Php 60,000 or more	NO DATA	Total Participants	TOTAL Student Population
#	1588	1213	733	71	60	56	3665	3721
%	42.68%	32.60%	19.70%	1.91%	1.61%	1.50%	98.50%	

Table 2.

To calculate the income per number of households, the office computes the average income based on the income ranges as shown in table 3.

AVERAGE INCOME PER CAPITA	Less than Php 10,000	Php 10,000-Php 19,000	Php 20,000-Php 39,000	Php 40,000-Php 59,000	Php 60,000 or more	NO DATA	Total Participants	TOTAL Student Population
#	3535	114	16	0	0	56	3665	3721
%	95.00%	3.06%	0.43%	0.00%	0.00%	1.50%	98.50%	

Table 3

Here's another result: instead of the average income, the income is based on the maximum ranges per income bracket, as shown in Table 4.

MAX INCOME PER CAPITA	Less than Php 10,000	Php 10,000-Php 19,000	Php 20,000-Php 39,000	Php 40,000-Php 59,000	Php 60,000 or more	NO DATA	Total Participants	TOTAL Student Population
#	3463	177	25	0	0	56	3665	3721
%	93.07%	4.76%	0.67%	0.00%	0.00%	1.50%	98.50%	

Table 4.
