

# MABALACAT CITY COLLEGE

Mabalacat City College

July 5, 2021 · 🌐

WE DON'T JUST PLANT, WE ALSO SERVE!

"When you work together as a team, nothing is impossible. We'll always do Bayanihan!"

Mabalacat City College – Kayantabe instituted the first phase of the Calamansi Project on July 2, 2021, and despite the restrictions imposed by the pandemic, Mabalacat City College personnel, the Tribal Chieftain, and other community members joined forces as volunteers in the planting calamansi plants in the Aeta Community and demonstrated the culture of "Bayanihan".

During the program, Dr. Melanie Vilorina Briones, Vice President for Academic Affairs, delivered a heartfelt message to all community members, saying, "Ang proyektong ito ay para sa inyong lahat, upang makatulo ng sa inyong pang-araw araw na pamumuhay. Ang bawat puno ng calamansi ay pwedeng makapamunga ng sagana at tiyak na makapagbibigay ng maraming benepisyo. Nawa'y inyong pangalagaan nang sa ganoon'y mapakinabangan ng lahat. Marami pa po tayong nakaabang na mga proyektong pangkabuhayan at asahan po ninyo na lagi po kaming susuporta".

Mr. Niel P. Rigdao, Director of MCC Kayantabe, outlines the project's purpose and expressed gratitude to everyone who assisted and volunteered for the project. He was overwhelmed by the project's success after months of anticipation.

The head of the National Service Training Program, Ms. Marilyn S. Arcilla, also expressed her gratitude to all NSTP students who participated in donating calamansi plants.

MCC Kayantabe expressed its gratitude for the assistance of the 2nd Air Force Reserve Command in providing transportation to the community extension activity and said that the project is only in its first phase, more is yet to come for the institution as a Community Extension arm of Mabalacat City College.
