

## MCC QAA AND MIS COLLAB SPEEDS UP RECORDS PROCESSING

To adhere to the Paper Use Reduction Policy, which is part of the institution's Climate Change Policies, the Records Section of the Quality Assurance and Archives Unit QAA resolved to eliminate in its processes the requirement for its clients to print their documents for records stamping and the need to physically submit it to the QAA.

Aside from the reduction in paper use, the said electronic system is considered by the QAA as beneficial now more than ever especially that the College is back to its Alternative Work Arrangement (AWA) as part of safety measures being implemented.
